- All items must be shipped in DOT approved shipping containers.
2. The Generator is responsible for any additional charge assessed by MKC due to nonconforming waste. It is understood that such charges will be assessed after the regular MKC billing.
 3. Chemicals must not contain nor be considered infections, etiological, biological, dioxin or dioxin related material or radioactive. Waste containing PCBs or considered explosive must be handled on a case-by-case basis.
 4. All prices are firm for 30 days and will be confirmed when the profile is approved and the order is placed.
 5. Any estimates shown are intended for budgeting purposes only.
 6. The Company's right to receive payment is unconditional and is not conditioned upon broker first receiving payment from Generator or any other party. Payment terms are net 30 days.
 7. Generator must obtain a waste profile/approval number before waste can be accepted into MKC. Exception is made for lab packs which do not require an approval number.
 8. MKC may not be held liable for compliance with legislation put into effect after a completed hazardous waste management project.

MKC Enterprises, Inc. was issued a final Part B Hazardous Waste Facility Permit #HW-005(S) on 08/01/1984, by the State of Georgia, Department of Natural Resources. This Permit was renewed on 09/29/1995 [HW-005(S&T)] and is valid through 09/29/2005.

Please do not hesitate to contact us if you have any questions or require further information.

Sincerely,

Deborah Hodgson-Benedetto
Office Manager

MKC Enterprises, Inc.
